It includes sections for 'General' (code, description, division, person, type, status, active from, active to, security level), 'Prices' (type, discount, sales price, costs, purchase), 'Attributes' (sales, buy, stock controlled, from stock, serial numbers, billable), and 'Monitor' (configuration, documents, transactions, reports, BOM, SF Orders, workflow, projects, countries, orders, statistics, financial, inventory, PGP Orders). A picture of the bicycle is shown at the bottom right.

About Macola

Macola is ERP and business software that manufacturers and distributors use to automate, manage and grow their businesses. The software empowers companies to take control of cost and complexity at every critical stage from design through delivery and see all facets of their business from a single application.

Macola is an Exact product. Exact builds business software for SMEs and their accountants. Our innovative technology is aimed at specific business needs, providing an overview of today and insights into the opportunities of tomorrow. Exact inspires businesses to grow. Our 1,600 employees love, share and support our customers' ambition. Like them, we aim high. Like them, we aspire to lead the way. That's how we know it's a bumpy road to success. And that's why we build software to help smooth it out, enabling our customers from all over the world to grow.

Macola. ERP and business software.
